#### Bourbon Circuit Court.

deleterious effect, so far as has been suspended pending an appeal to the

Joe Baker, colored, was sentenced to hve months in the county jail for involuntary manslaughter.

#### The Effect of It.

The good roads amendment of the Constitution does not give one county the right to put a tax on another, nor does it impose a tax on the people of any county for roads unless they want to be taxed. It simply gives any county the right to vote for the issue of bonds, or for other means to secure funds to maintain and improve the turnpikes and the public roads.

#### Bank Guaranty Law Unconstitutional.

Judge John ... Pollock, in the United States District Court at Topeka, Kas., in a decision declared the Kansas bank guaranty law to be invalid.

Judge Pollock granted two injune tions in ruling out the law. One case was that of Frank S. Larabee, a stockwas that of Frank S. Larabee, a stock-holder in the Exchange State Bank of Hutchison, against the officers and directors of the bank and J. N. Dolley, State Bank Commissioner. His contention was that a stockholder in a State bank can object and prevent the participation of his bank in the guaranty law. Judge Pollock upheld this argument in every particular.

argument in every particular.

The other case was that of the Abiline National Bank against the Bank Commissioner and State Treasurer on the ground that the State guaranty law is unconstitutional. Judge Pollock granted a temporary injunction in this case, holding the law inoperative and fixed a bond of \$50,000 to be given by the bank pending the final disposition of the case.

### To Our Patrons.

We desire to extend our heartiest thanks to our patrons for their liberal patronage during the holidays, and, in fact, ever since we started in business.

We want to assure you that we appreciate your trade and ask for a continuance. We will at all times endeavor to give you the very best goods for the very least money.

Wishing one and all a happy and prosperous New Year, we remain,

Yours truly, MITCHELL & BLAKEMORE.

#### Democrat c Opportunity.

The tariff question is not settled, Oberdorfer's. and, like all moral questions, will not be until it is settled right. Discussing the matter, Harper's weekly says that the Republican party has not succeeded in making off with the issue, as Cleveland feared, and it is open to the He said: "I'm tricked by fate." Democrats to repossess themselves of the most valuable piece of property they ever had. The way is plain. President Woodrow Wilson in a recent speech at Plainfield, N. J., pointed it out clearly enough. The old solgan of tariff reform never had more potency than it would have today if the party would take it up with the old heartiness. With that war cry, and led by such men as President Wilson himself and Governor Harmon, and An Indigestion the still surviving associates of Governor Russell, in Massachusetts, it could again march toward light and victory instead of stumbling on in darkness to defeat. That change of policy and leadership once effected, cur party system would be restored to its proper working, for we should have two live, competent parties instead of one party and a rabble. It is the plain cuty of every Democrat who loves his party and his country to go to work to bring about that consummation.

#### Commission System" Failure.

West Virginia cities, like Colorado Springs, Grand Junction and several other Western cities, are finding the 'commssion' system of municipal government a failure. A press dispatch says:

"It is said that the new method of nunicipal government known as the 'Commissioner' system, has already become quite distasteful to the cities of Charleston and Bluefield, West Vir gina, where they became infatuated with the new idea and were unwilling to rest until they gave it a trial. It was only last winter that new charters for these cities were enacted by the Legislature and in less than eight months the people became disgusted

with it and now want to get it off their hands. Huntington, the first city Man comes into the world without in the State to adopt the new idea his consent and leaves it against his has been trying to make something out will. # Remedy Free

Many people who are otherwise healthy suffer from indigestion, or dyspepsia. When you consider that the stomach and allied digestive organs are the most important organs of the body, it would seem that a disorder there is to be taken very ser-

Dyspeptics cannot eat the things they like; food sours in the stomach; then chronic constipation begins, or, as is often the case, you have been constipated all along, and the stools are forced and investigation.

along, and the stools are forced and irregular.

But there is no use letting indigestion go until it becomes chronic and undermines your health. It is good advice to suggest to you that you go to your druggist and get a bottle of Dr. Caldwell's Syrup Pepsin, the wonderful cure for stomach, liver and bowel troubles. That is what C. Fowler, of Carson City, Mich., did and he is well today. Others who did the same and are cured are Ida A. Fortune, of Grand Junction, Tenn., B. F. Thompson, of Shenandoah, Ia., who actually considers that it saved his life. You can obtain a 50-cent or \$1 bottle of the druggist, and, taken according to directions, it will probably be all you need. It is a liquid, acts gently, never gripes, and besides the laxativa effect, contains exceptional tonic properties which tone the stomach, and that is what is especially needed in indigestion.

All sufferers from indigestion who have never used Dr. Caldwell's Syrup Pepsin can obtain a free test bottle by writing the doctor. It will be sent direct to your home without any charge. In this way thousands have proven to their own satisfaction Dr. Caldwell's Syrup Pepsin is the very remedy they needed to cure indigestion. When once you use this grand remedy you will throw violent cathartics, tablets, salts, etc., away.

If there is anything about your aliment that you don't

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell bldg.

When we began advertising this Coal some people thought us full of "hot air" and simply tried it through curiosity—they apologised, bought more and are now our best customers. The Coal is full of "hot air," not we. Get in line.

### What is "Whiskey?"

The definition of the word "whisky"

made of neutral species is whisky when reduced to potable strength.

The President covered other details in his decision and gave directions for the proper brand of various varieties of liquor, holding among other things, that whisky made from a mixture of "straight" whisky and "neutral species" may be called a blend. According to the instructions under this decision "straight whiskies" will

hereafter be branded as such, but the brand may be accompanied by the legend "aged in wood," and whisky made from rectified, distilled or neutral species may be branded so as to make the principal ingredient. In addition, if they so desire, manufacturers of straight whisky may also use the word "bourbon," "rye" as the facts.

The definition of "blends" is not STOCKHOLDERS' MEETING. species, this being made from molasses and reduced to potable strength. This article he says, cannot be labeled as whisky. It is rum.

#### A New Remedy.

Miss Sophronia P. Breckinridge, of Lexington, daughter of the late Col. W. C. P. Breckinridge, and well known in educational circles as "Dr. S. P. Breekinridge," has delivered a most interesting lecture on the wastes of the world, and offers "standardization" as a remedy.

#### Terrible Storm.

Grim winter swept into New England Sunday on the wings of a northeast storm with such terrific energy as to cause great damage, suffering and deaths. The gale drove a tidal wave into Massachusetts Bay, which nearly squalled that of the famous storm of 1851. The wet snow prostrated wires, and railroad trains were stalled. Three perso's lost hir lives in Everett and Chels's by the sudden rise of the tide. In Boston the tile caused an estimated damage of over \$1,000,000/ In Everett, Cornel u: Harkin and his wife were causht in their beds and everwhelmed by the flood, while an infant child lost its life in Chelsea under similar circumstances. At many east storm with such terrific energy as

cild lost its life in Chelsea under similar circumstances. At mary places along the coast persons were taken from their homes in boats, hundreds of summer cottages undermined, bulkheads destroyed and persons living some distance from the sea found themselves looking over the pen ocean. The prostration of wire service, especially in southeastern New England, was more extensive than for many years.

House For Rent.

My residence on Duncan Avenue containing nine rooms, with all modern improvements Large gardenand stable Possession given January 1, 1910. For further particulars apply to MRS. MARY IRELAND DAVIS.

We desire to express our thanks and appreciation for the liberal patronage extended us during the Holiday season and for the year so near a close.

This year has been one of the most prosperous to us during our business career, and we feel that we owe this to the liberality of the citizens of Paris and Bourbon county. It has been our direct aim to please all of our patrons and it is from this effort alone we feel that we have reaped such a reward.

In the future we assure one and all the same courteous treatment of the past, and wishing one and all a happy and prosperous New Year, we remain,

Very respectfully,

A. F. Wheeler & Co.

#### QUICKSAND.

Flow It is Formed and Its Grewsome Characteristics. To most persons the word "quick-

sand" gives a sensation of horror similar to that produced by the thought of a snake, and many sensational accounts have given to quicksand almost human attributes. No ordinary observer would be able to distinguish dry quicksand from any other sand. and the average person would be unable to restore it to its "quick" properties even if he tried. If water is mixed with the quicksand the mass does not become mobile, and if the water is drained off the sand will be found firmly packed. Quicksand is comparatively very

light, weighing about ninety-four pounds to the cubic foot, while other boastful person, "I stood among the forms of sand run as high as 171 pounds. Quicksand when examined 'Oh, so you spent your time visiting under the microscope will be found to the wharves did you?" asked the sar. have rounded corners, like river sand, as distinguished from "sharp" sand. It is quicksand that is used in hourglasses and egg glasses, partly because of its fineness and partly because it The jury in the case of the State vs. Garrett Johnson and Arthur Cloar, alleged leaders of the Reelfoot Lake lowing the water to overflow very slowly when it has worked up through the sand. The upward current will be found to loosen the sand and to raise the surface very slightly, separating and lubricating the particles so that

they are easily displaced. The bucket now contains genuine reduced proportionately, weighing in the water but thirty-two and a half pounds as against ninety-four pounds when dry. Bulk for bulk, the mixture is nearly twice the weight of a man, state, presenting an apparently firm surface, resembling simply damp sand, it is the most deadly man trap con-

Quicksand requires in all cases an upward current which is not quick or strong enough to break through in the form of a spring. Ordinarily water flowing over quicksand will not make it dangerous. It may be formed in tidal rivers and on the shores of tidal seas by the rising tide saturating a porous stratum of ground below high water mark, and when the tide falls a return current is established through the porous (sandy) ground with a sufficient velocity to loosen the sand and make it "quick."

A permanent quicksand is found where a slow current of fresh water tle animals. One of this party, while finds its way to the surface of the sand bed either in the bottom of a stream or elsewhere. Quicksands that are encountered during the sinking of While at lunch a large bunch of pecwalls and foundations are due to the caries appeared, and they thought it young lawyer, "but I'd like to arrange influx of water when the work gets for police protection hereafter when I below "spring level" or the level of and get one or two for ment, so they the water in the ground at that par-"What do you mean, sir?" queried ticular spot. ### THE VICIOUS PECCARY

A Fierce Creature Is the South American Wild Boar.

HE IS SMALL, BUT FEARLESS

Will Attack Man or Any Animal In Existence on the Slightest Provocation and Will Fight to the Death-A Battle With a Jaguar.

During one of his journeys into Mexlco Edward W. Walton, a mining expert, had a close call from being sliced to shreds by the fierce little South American pigs known as peccaries. He told the story of his escape to a Denver Post reporter.

"I wished to secure some plumes from a number of the beautifully plumaged birds," said Mr. Walton. "I went into the jungle and came to a small opening in which there were dry leaves, probably a foot in depth, covering the ground, and hundreds of beautifully colored tropical birds in the air and in the trees. I fired at one of the birds in flight, when it seemed to me the whole area of these dead leaves arose in front of and all around me. Being a stranger, naturally I was much frightened, especially when I saw the animals which raised up the leaves apparently ready for an attack. The older animals opened and closed their mouths, showing their big. sharp tusks, formed much like a dirk knife. and some of them started toward me. Impulsively I commenced firing my gun in the air and turned around.

"These animals proved to be peccaries. They are most ferocious and will attack any animal in existence on the slightest provocation. When I got back to headquarters and told my companions my experience I was informed that had I shot one of the animals and made him squeal the whole bunch would have been on me and would have torn me to pieces quickly. They have been known to kill bears, jaguars, cattle, horses and any number of dogs. Although in the fight scores of their number might be killed, they seem to have no fear when once aroused.

the animals.

"I was told the peccaries burrow unler the dry leaves to protect themselves from mosquitoes and other winged pests of that hot country. My friends had many exciting experiences to tell in regard to these ferecious littraveling with a companion in a wagon, stopped for lunch under some trees fired into them, wounding several, which commenced to squeal. Then the whole bunch made an attack. The men climbed quickly into the wagon and kept on shooting so long as the ammunition which they had in their pockets lasted. As they were opening their bags to get out more ammunition the peccaries climbed up the tongue cast upon its surface, no matter how the men saved themselves only by jumping on to the seat and then on to limbs of the trees, the peccaries taking possession of the wagon and tearing things to pieces. They remained in possession for hours, the men watching

them from safety in the trees." The peccary, or South American wild boar, is the smallest of his species, averaging about three feet long, nor is the unimal possessed of any unusual degree of strength. To make up for the natural individual deficiencies in combat with the more powerful animals of the jungle the peccaries always travel in large herds. When once attacked by a herd of peccaries the outcome is nearly always death to their enemy. The little pigs are armed with short sharp tusks, and no matter how great the slaughter of their own number during the inelee the herd stay on the job until the work is finished.

Travelers in tropica! and South American countries tell of fierce encounters between the peccaries and the A young man who was not particu- leguar, the monster cat which is lord larly entertaining was monopolizing of the forest. The jaguar has a fondness for a dinner of pork, but a wholewith a lot of uninteresting conversa- some respect for the power of a herd of wild pigs. Books cannot always please, however good; minds are not ever craving for heir foed.-Crabbe.

### Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health.

timately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr.

Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription."
Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce. Pres., Buffalo, N.Y.
